Welcome to the G Gallery

Behind the Vale

by Janet Donin

Celebrating its 50th anniversary, this family-run business is probably the largest and most diverse furniture store in the county. Spread out over four floors and accessed by a fabulous staircase, each level is arranged in lifestyle room settings to make your choice of furniture simple. The G-Plan gallery, featuring 16 collections, is all about comfortable seating in soft, neutral fabrics, displayed with rugs and accessories to liven the look. Upstairs, the recently opened Design Collection is more cutting edge with glossy tables and storage in black or white with feature chairs in amazing fabrics. Elsewhere, there are comfortable beds, swivelling love seats, smart office furniture and clever lighting to enhance any room.

Main picture We love the bright entrance to the G-Plan Gallery
